

## Case Study

# Tanzzentrum NRW

### Overview

“ A Harlequin floor was my first and only choice because they are simply the best floors on the market. ”  
**Jennifer Bergs**  
Dance School Director

Tanzzentrum NRW is a dance school which is located in the loft of a shopping centre in Bielefeld, Germany. Its 160m<sup>2</sup> dance room has plenty of natural light and is used for a number of dance styles, including ballet, jazz, modern pole and even acrobatics.

In Germany, Tanzzentrum NRW is the only dance school offering a state-recognised avocational traineeship for prospective dance teachers. Director Jennifer Bergs developed this concept with the help of two board members of the German Dance Teachers' Association. Having trained as a dance teacher whilst studying law, Ms Bergs wanted to offer this chance to other full-time working dance enthusiasts.
