

# Case Study Marella Explorer 2

## Overview

Marella's first adults-only passenger ship, the Marella Explorer 2 set sail on its maiden voyage April 2019.

The Broadway Show Lounge stage underwent a full refurbishment during the Marella Explorer 2's dry dock refit in Cadiz, Spain.

Onboard entertainment production company Ted Group produced two brand new shows for the theatre space "Revive! The Forgotten Circus" and "Lovestruck".

## The requirement:

Stage refurbishment and new stage surface

## The solution

The centre stage featured a double revolve requiring bespoke access panels, orchestra pit lifts and a newly created LED wall. Harlequin's specialist installation teams installed a new plywood surface over the original solid wood sub-floor. A feather finish created a smooth, level surface on to which Harlequin Standfast vinyl flooring was permanently laid with adhesive and fully welded seams. PVC nosing was fitted to the front of the stage and edges were painted black.

Harlequin Standfast Black

Homogeneous PVC  
with a slip-resistant  
performance surface
