

Harlequin Ballet Barres & Brackets

Whether you choose portable, freestanding or permanent wall or floor-mounted ballet barres, you'll realise they are a prerequisite for the dancer. Without a comfortable and sturdy barre it is hard to do the essential warm-up and stretching exercises. Both amateurs and professionals can minimise the risk of injury by stretching properly to increase blood-flow to the muscles and improve flexibility whilst achieving an elegant stance.

Freestanding ballet barres

- beech wood and aluminium freestanding ballet barres
- height from floor to top of lower barre - 82cm (32.28")
- height from floor to upper barre - 105cm (41.34")
- barre diameter - 4cm (1.57")
- adjustable feet for stability on an uneven floor
- can be set-up in various configurations using extra components i.e. continuous line, L shape

Small
• length of barre 132cm (51.97")
• weight (approx.) 9kg

Medium
• length of barre 182cm (71.65")
• weight (approx.) 12kg

Large
• length of barre 360cm (141.73")
• weight (approx.) 20kg

Single and double wall-mounted brackets and wooden barres

Harlequin's wall-mounted ballet barres feature various shaped mounting plates to suit the design of your studio.

- brackets are supplied complete with screws and plugs and can be mounted at any height (four fixings per single bracket / six fixings per double)
- barres are set at 21cm (8.27") from the wall to the centre of the barre. On the double bracket the two wooden barres are spaced 20cm (7.87") apart
- lengths of barre can be joined inside the bracket heads which offers a continuous length of ballet barre eg; full length of studio wall
- brackets come in black, grey and white as standard. Additional colours including metallic and chrome plated are custom made to order
- wood barres are 5cm (1.97") in diameter and 150cm (59") in length. Other lengths available in beech
- wood barres are supplied uncoated with a natural sanded finish
- oval brackets are 150mm wide x 80mm height (6mm plate)
- square brackets are 40mm wide x 300mm height (6mm plate)

Harlequin Ballet Barres & Brackets

Floor-mounted brackets

Harlequin Floors offer two options for floor mounted brackets. The brackets can be installed at the same time as a Harlequin sprung floor, alternatively brackets can be retro-fitted into an existing floor surface.

Both options can be professionally installed by our Harlequin trained installers. The retro-fit brackets have a self-install option.

Available to purchase in standard configurations and colours or custom made to suit your specific height or colour requirements.

Retro-fit floor-mounted brackets

Harlequin retro-fit floor mounted brackets are constructed from high grade steel with a powder coated finish. The base plate is fitted with a cover plate to hide floor fittings and provide a streamlined look to your studio (not suitable for sprung floor).

- height - floor to centre of upper barre 1055mm
- colour - black (special order colours available)
- weight - single 8kg / double 10kg
- pine barre available in 1.5m length
- beech barre available in 1.5m and 2.3m lengths
- requires M10 fixings
