

“Harlequin have the best floors”

Harlequin have the best floors. You can come out of rehearsals and feel really good - you just feel comfortable on these floors.

Aston Merrygold
Co-founder
Base Studios

Aston Merrygold and Dax O'Callaghan co-founders of BASE Studios in Vauxhall, London have created a collaborative base for the entertainment industry and dance community featuring 7 studios fitted with Harlequin Activity sprung and Harlequin Fiesta vinyl performance floors.

Harlequin Fiesta™

Harlequin Fiesta was developed because of the need for a floor which looked exactly like wood, but without all the associated problems of cleaning and maintenance. The floor's oak-strip performance surface provides the ideal solution.

Harlequin Fiesta is suitable for ballroom, salsa, percussive including flamenco, Irish and tap, multi-purpose use, hip-hop, jazz, street, aerobics, zumba and for use in theatres and for operatic performances.

Harlequin Fiesta is specified for permanent installation, when the joins are welded to provide a continuous surface. It can be laid on any hard, smooth sub-floor and is an excellent choice as the vinyl performance surface in conjunction with a Harlequin sprung floor.

Specification guide

Permanent or Portable	Permanent
Roll width	2m
Roll length	10m, 15m, 20m, 25m
Colours	Oak strip effect
Thickness	2mm
Weight	3kg/m ²
Fire rating	Bfl-s1 (EN 13501-1)
Health and Safety	REACH compliant

Oak strip effect - 261

Harlequin Activity™

Harlequin Activity is a permanently installed sprung floor system, based on the well-established 'triple sandwich' construction originated by Harlequin over 35 years ago. It's a fully-floating system with no fixings to the sub-floor and can be laid on any reasonably smooth and flat surface without prior preparation.

Harlequin Activity is shock-damped to avoid a 'trampoline' effect and provides area and point elasticity to offer identical characteristics across the whole floor. It is an 'industry standard' choice with many hundreds of installations worldwide, effectively reducing injuries to both teachers and performers.

Harlequin Activity is installed by our own highly-skilled technical team and all work is fully guaranteed. Different surface options include:

- A Harlequin vinyl performance floor, selected from our range
- Solid hardwood - in beech, oak or maple
- Engineered board with a hardwood wear layer - in beech, oak or maple.

If a Harlequin vinyl performance floor is chosen, a colour matched composite edging profile will be installed around the finished edges. If solid hardwood or engineered board is chosen, the skirting will be 'optional'.

Specification guide

Permanent or Portable	Permanent
Minimum floor thickness (before inclusion of chosen finish)	46mm
Minimum floor weight (before inclusion of chosen finish)	14.1kg/m ²
Testing standards	BS EN 14904:2006
Average shock absorption	64%
Maximum point load (BS EN 1195)	549kg
Area deflection	7.2%
Rolling load	>1500N
Vertical deformation	4.9mm
